SCHOOL :

ANGOL NYELVI VERSENY NYOLCADIKOSOKNAK 2014

1. Complete the gaps /1-10/ with the missing words. Use only one word for each gap.

Anniversary

Széchenyi Secondary School is 1 of the most impressive schools in Fejér county.

Our secondary school establishes general education, and pursues learning for higher studies as it is a university preparatory type of school.

Secondary education usually lasts for 4 years but in our secondary school 2 lasts for 4 or 8 years depending on how many years the students spent in primary school.

The fame of the school is based on the high standard of teaching physics, mathematics, biology and also languages.

There 3 several competitions where our students regularly win prizes even abroad.

Besides the success of science, languages are also essential. English is one of the 4 important languages for all of our students but there are several others such as German, French, Russian and also Latin.

Sport plays 5 important role in our school life. The students take up different activities, especially water sports like waterpolo, swimming and other team sports like handball, basketball and football.

Cultural and historical traditions are also important here, more and 6 students are interested in studying folkdance, music and they are enthusiastic about showing their talent by performing at school ceremonies.

The choires were established in 1953 and 7 then they have been travelled a lot and shared the joy of music everywhere. They regularly win well-known prizes and hold concerts.

There is a special ball for the school leavers 8 December where they receive a badge with a blue ribbon on which the name of the school is written. With this they are formally nominated as school leavers.

The four school leaver classes perform beautiful dances.

Each year we have the so called „Ballagás” which is a special occasion 9 the end of April when the school leavers walk through the corridors and classrooms of the school and say goodbye to their secondary school years. After finishing secondary school, students take a school-leaving exam, 10 consists of exams on five subjects that also serve as entry exams to universities and colleges.

2. Could you find the mistakes in the dialogues? Underline the mistakes and correct them.

- - Excuse me! Can you tell me how to get to the train station?
- Go down this street and turn into left at the traffic light. Go straightly on until you come to a church. After that, take the first street on the right and it's there.
- How far is it?
- It's quite a long road on foot. About two miles from here.
1..... 2..... 3.....

- - John washing his car for the third time in this week. Its a brand new car and he is absolutely in love with it.
- But perhaps he should do a little more walking instead of driving. Just look at him- he is so fat, it's easier to jump over him then to go around.
- Yes, I think he needs to loose some weight.
1..... 2..... 3..... 4..... 5.....

- - Guess what, we met Annie yesterday on the award ceremony.
- Really? I have'nt seen her since five years. How is she?
- She's OK. Did you know it she divorced her husband?
- Yes, I heard about that from there daughter.
- And we have some other interesting informations for you.

4. Fill in the missing words in the following drawings. Choose an appropriate phrase from the ones below:

- a Yes, I think so.
- b Yes, that would be nice.
- c Yes, very funny.
- d Not at all.
- e No, I don't think I have.
- f Yes - do help yourself.
- g How about going to the pictures?
- h No, there's no need, thanks.
- i No, not just now, thanks.
- j It was great fun.
- k No, not very.
- l That's rubbish!

5. Read the following text and decide if the statements below are true or false.

The First Computer Programmer

Ada Lovelace was the daughter of the poet Lord Byron. She was taught by Mary Somerville, a well-known researcher and scientific author, who introduced her to Charles Babbage in June 1833. Babbage was an English mathematician, who first had the idea for a programmable computer. In 1842 and 1843, Ada translated the work of an Italian mathematician, Luigi Menabrea, on Babbage's Analytical Engine. Though mechanical, this machine was an important step in the history of computers; it was the design of a mechanical general-purpose computer. Babbage worked on it for many years until his death in 1871. However, because of financial, political, and legal issues, the engine was never built. The design of the machine was very modern; it anticipated the first completed general-purpose computers by about 100 years.

When Ada translated the article, she added a set of notes which specified in complete detail a method for calculating certain numbers with the Analytical Engine, which have since been recognized by historians as the world's first computer program. She also saw possibilities in it that Babbage hadn't: she realised that the machine could compose pieces of music. The computer programming language 'Ada', used in some aviation and military programs, is named after her.

1 - Ada Lovelace's teacher introduced her to Charles Babbage.

True False

2 - Babbage programmed the first computer.

True False

3 - Ada translated the article in 1842.

True False

4 - The Analytical Engine was electronic.

True False

5 - Luigi Menabrea designed the first computer.

True False

6 - Babbage finished the machine before he died.

True False

7 - Babbage's design was ahead of its time.

True False

8 - Ada's work was instantly recognised as being the first computer program.

True False

9 - Babbage saw that his machine could write music.

True False

10 - Ada wrote military and aviation computer programs.

True False

21. I feel so sorry ... her.

- a. at b. with c. for d. because

22. Last summer Andy went on a ... to Thailand.

- a. road b. travel c. trip d. route

23. The boys played a joke ... their aunt.

- a. at b. to c. with d. on

7. Which of the words in each headline can be replaced by 1 of the words below?

For example:

1. a. fail
b. continue
c. succeed
d. delayed

1. PAY TALKS
BREAK DOWN

2. PM URGES
ELECTION

2. a. stops
b. votes
c. encourages
d. prevents

3. STRIKE OVER

4. INFLATION
AFFECTS
PRICES

3. a. finished
b. increased
c. refused
d. begun

5. SOLUTION
IN SIGHT

6. DIRECTOR
PICKS STAR

4. a. changes
b. improves
c. influences
d. decreases

7. POWER
STRUGGLE
WITH
UNION

8. PRISONERS
GIVE UP
HOPE

5. a. disaster
b. destruction
c. escape
d. answer

9. FOOTBALL
FANS'
FAVOURITE

10. SECOND
CHANCE
FOR
ATHLETE

6. a. chooses
b. sacks
c. pays
d. criticises

7. a. agreement
b. fight
c. discussion
d. inquiry

8. a. want
b. expect
c. express
d. lose

9. a. players
b. supporters
c. managers
d. families

10. a. risk
b. win
c. opportunity
d. prize

LISTENING

1. Listen to part of a talk about the Airbus A380.

Listen and put these points in the order they are mentioned.

Subject	Order
a) the countries which collaborate in the manufacturing	
b) the range without refuelling	
c) the size	
d) where the plane is put together	
e) where the wings are made	

/5

2. Listen to the song and complete it with only one word.

The Rolling Stones – Ruby Tuesday

She would never say where she came from

Yesterday don't if it's gone

While the sun is bright

Or in the night

No one knows

She comes and goes

Goodbye, Ruby Tuesday

Who could a name on you?

When you with every new day

Still I'm gonna miss you

Don't question why she needs to be so

She'll tell you it's the only way to be

She just can't be chained

To a where nothing's gained

And nothing's lost

At such a cost

[refrén]

There's no time to lose, I heard her say

Catch your before they slip away

Dying all the time

Lose your dreams

And you will lose your

Ain't life unkind?
